Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

Figures 2, 4	Species I
Figures 5,6	Species II
Figures 7A, 7B	Species III
Figures 8A,8B,9,10,11A,11B	Species IV
Figures 12A	Species V
Figures 12B	Species VI
Figures 12C	Species VII
Figures 13A	Species VIII

The method claims will be examined with the selected species.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
